

43.0 dBu service contour

STROUD BROADCASTING · FACILITY 797779

Fox Gap Channel 5

Predicted coverage at 2.00 kW ERP, directional, aimed east-northeast. TVStudy v2.3.1, Longley-Rice, FCC LMS data of 29 October 2026.

POPULATION SERVED
219,664

INSIDE CONTOUR
223,139

SERVICE AREA
783 sq mi

PEAK ERP
2.00 kW

COVERAGE

Power is directed east-northeast, on a bearing of 65°. Stroudsburg and East Stroudsburg are 3.5 to 4.3 miles north of the transmitter, inside the contour. The main lobe reaches 30 to 32 miles east and northeast across Sussex County, NJ, through Newton to Sparta, Franklin and Lake Hopatcong.

Shaded area is the predicted service contour, computed from terrain along 360 radials. Coverage inside it varies with local terrain. County and interstate data from US Census TIGER 2023.
